Lightbox is an all-inclusive digital of curriculum topics in an origina on National Curriculum Standards.

Pitcher Plant

Pitcher plants have a pitfall trap. They create sweet smells to attract insects. Pitcher plants have leaves that look like flowers for insects to eat.

Integrated Digital Resources

Digital resources are conveniently located and integrated into the text.

Visually appealing infographics bring topical facts to life.

Student Assessment Activities

Every Lightbox title comes with 3 to 6 activities.

All Lightbox activities can be downloaded, printed, or filled out online.

Language Arts

Great Storytellers Learning to Write Show What You Know!

Math How to Measure Learn 3D Shapes

Works with all devices

Along with working on a standard desktop, the Lightbox 3-5 Nonfiction platform can be viewed on all tablets and Smart Boards.

carnivorous plants. These different plants are not all related to each other. However, they do share common features. All carnivorous plants use their leaves as traps to catch food. Sticky traps attach to insects and stop them from escaping. Snap traps close on prev. undews use their sticky hairs to When animals fall into pitfall traps, catch insects and other prey. they are unable to get out again.

Carnivorous Plants

Carnivorous plants have special

Most plants use sunlight, water, and nutrients from the soil to get the food they need to grow and survive.

Carnivorous plants grow in places where the soil is poor

in nutrients. They get the nutrients they are missing by

capturing and eating small animals and insects.

ways of getting food.
